Karachi, Pakistan | +92-333-8869510 | [ajay\\_nedians@yahoo.com](mailto:ajay_nedians@yahoo.com) | [lazisaien.github.io](https://lazisaien.github.io)

Project Manager with 13+ years of experience across QA, Business Analysis, and Project Delivery, including 10+ years in the healthcare domain. Expert in leading cross-functional teams, managing end-to-end software development lifecycles, and delivering scalable web and mobile solutions. Strong background in Agile methodologies, stakeholder management, and quality-driven delivery.

---

## CORE COMPETENCIES

- Project Management: Agile, Scrum, Sprint Planning, Risk & Issue Management
- Stakeholder Management & Client Communication
- Business Analysis & Requirements Gathering
- Quality Assurance & Testing Strategy
- Release Management & Delivery Execution
- Healthcare Systems & Compliance (WCAG, HIPAA awareness)
- Web Development, Wireframing & UX Collaboration
- AI-Assisted Development & Productivity Enablement

## TOOLS & TECHNOLOGIES

- Project & Dev Tools: Jira, Bitbucket, Azure DevOps (CI/CD)
- Testing & QA Tools: TestRail, Selenium (basic exposure), Postman
- AI & Productivity Tools: ChatGPT, GitHub Copilot, Agentic AI tools, AI-based code assistants
- Collaboration Tools: Microsoft Teams, Confluence
- Other: Checkmarx (Security Scans), Pexip (Video/CC integrations)

## PROFESSIONAL EXPERIENCE

### 10Pearls — Associate Project Manager (Jan 2024 – Present)

- Leading end-to-end delivery for healthcare and enterprise applications
- Managing cross-functional teams (QA, Dev, Design) across distributed environments
- Driving Agile ceremonies, sprint planning, and executive stakeholder reporting
- Leveraging AI tools (ChatGPT, Copilot) to improve documentation, requirement clarity, and team productivity
- Ensuring compliance with accessibility (WCAG) and healthcare standards
- Introduced AI-assisted workflows for faster analysis, estimation, and documentation

### 10Pearls — Project Lead (Jul 2020 – Dec 2023)

- Delivered multiple web and mobile applications on time and within scope.
- Functioned as Scrum Master, improving team velocity and delivery predictability.
- Coordinated between business, technical, and QA teams.

### 10Pearls — QA Leadership Roles (Jul 2013 – Jun 2020)

- Progressed from SQA Engineer to Lead Test Engineer
- Defined QA strategies, test plans, and automation initiatives
- Led QA efforts for healthcare and enterprise-level applications.

## AI & DIGITAL TRANSFORMATION INITIATIVES

- Actively using AI tools (ChatGPT, Copilot, Agentic AI) for:
  - Requirement refinement and documentation
  - Test case generation and validation
  - Code review assistance and developer productivity
  - Sprint planning insights and risk identification

## KEY ACHIEVEMENTS

- Having 10 years of experience in healthcare platforms with high client satisfaction
- Improved QA processes leading to better product quality and reduced defects.
- Led teams across multiple domains including healthcare, fintech, and mobile apps.

## EDUCATION

- MPM - Master's in project management from Shaheed Zulfiqar Ali Bhutto Institute of Science & Technology (Karachi) | **CGPA: 3.43** | **2014 – 2016**
- BCIT (Bachelor - Computer Science & Information Technology) from NED University of Engineering & Technology (Karachi) | **CGPA: 3.4** | **2009 – 2012**
